

BSB SERIES BANNER ARM

SPECIFICATIONS

Pole and banner load stress reduced.

Arms hold banners taut for a crisp display.

Simple and easy installation on new and existing poles:

- Brackets attach to round, square, multi-sided, tapered and fluted shaped poles.
- Brackets attach to concrete, steel, aluminum, fiberglass, and wood poles.
- Attaches with band, bolts or lag screws.
- Remove rods in seconds for easy storage.

Each BannerSaver set includes:

- Two 2-piece base casting
- Two Spring tensioned assemblies
- Two sleeved black fiberglass arm (28", 34", or 40")
- Two large safety pin
- Two large plastic tie
- Mounting instructions
- Bracket-natural aluminum finish

Each FiberFlex Bracket set includes:

- Two aluminum cast holders
- Two metal sleeved black fiberglass arms (28", 34", or 40")
- Two large safety pins
- Two large plastic ties
- Mounting instructions

The FiberFlex is a standard bracket designed for short-term or budget-conscious installations.

Note: Actual banner width must be 4" less than the banner arm length.

As wind force decreases, BannerSaver's yieldable tension returns banner to its original display position maintaining the banner's original attractiveness 97% of the time.

WARRANTY DISCLAIMER

WLS Lighting Systems, provides a five-year warranty on the BSB products against product design, manufacturing and its wind-spilling capabilities as outlined in the BSB Wind Tunnel Test Report and assuming proper installation methods. During this warranty period, WLS Lighting Systems, will replace or repair the BSB product. This warranty applies only to the original purchaser and is in lieu of all other warranties either expressed or implied for a period of five years from the date of purchase. WLS Lighting Systems will not warrant the following: SHIPPING; customer is to bear all shipping expense to return the unit to WLS. LABOR; associated with the removal or installation. DAMAGE; caused by misuse, neglect abuse, accidents, alterations, corrosive environments and any other abnormal service conditions. This warranty specifically does not include product damage due to weather conditions rated F-0 and hisher (65mph) on the National Weather Fujita Scale.

Claims against warranty must include:

- Clear Pictures of installations, including proper banding.
- National Weather Service reporting based on the day of inquiry.

WLS Lighting customers recognize that performance related products like the BSB items require occasional maintenance including checking for loose banding and/or the replacement of bands. WLS encourages customers to remove light pole banners when a known F-0 or higher storm is expected.
