

INDUCTION LAMP BL SERIES

GENERATOR:
 - 120V standard; 277V available with step-down transformer
 - Minimum starting temperature - 40 F
 - Instant Start

SPECIFICATIONS

HOUSING - Heavy-duty one-piece aluminum housing with continuously welded corners. Welds are smooth sanded. Mounting feet are welded to the four corners of housing to ensure fixture stability and to allow for ease of installation.

FINISHES - Each fixture is finished with a baked-on polyester powder finishing process to give the fixture an exceptionally attractive appearance. Standard color is white. Consult factory for other colors.

REFLECTORS/DISTRIBUTION PATTERNS - High purity anodized aluminum in excess of 95% reflectivity, with a 25 year warranty. The reflector produces a symmetrical light pattern, ensuring uniform, glare-free lighting.

LIGHT SOURCES - Designed to operate with a Philips QL-85 watt Induction Lamp. Lamp life is rated for 100,000 hours and contains no filaments to break. The QL-85 lamp has an output of 6000 with a CRI of 85 and a 4000K color index. Lamp generator is available in 120 volt or 277 volt, lamp heat sink specially designed for maximum heat dissipation, ensuring cool lamp operating conditions and that lamp and fixture are able to survive a very hostile environment.

WARRANTY - Five year warranty on the fixture and finish, one year on the lamp and ballast.

LENS - Polycarbonate dropped prismatic refractor. Lens frame is one-piece construction, with a return flange, allowing gasket to fit snugly in the frame. Designed to keep dirt, debris and water from entering the housing and the optical assembly. Lens is secured in the lens frame with 5 lens clips and a silicon seal is applied. Lens frame is hinged and secured with a captive fastener.

ORDERING INFORMATION

SELECT APPROPRIATE CHOICE FROM EACH COLUMN TO FORMULATE ORDER CODE.
 Refer to example below.

| SERIES | DISTRIBUTION | WATTAGE | SOURCE | LENS | FINISH |
